

SleepSense®

Sensors that make sense

SleepSense® disposable thermal flow sensors are very flexible, and produce a clear and strong signal.

Available in three sizes to fit neonates through adults.

A cost effective alternative when there is contamination risk.

Use disposable cannulas with SleepSense® AC pressure sensor, for both flow and snore monitoring.

SleepSense® flow sensors share these advantages:

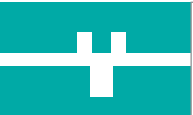

- ▶ Single use, low cost
- ▶ Sizes to fit all patients
- ▶ Clean, stable signals
- ▶ Very flexible and well tolerated by the patient
- ▶ Stable nasal and oral prongs maintain position during the night

SLP is certified to
ISO9001:2000 and
ISO13485:2003

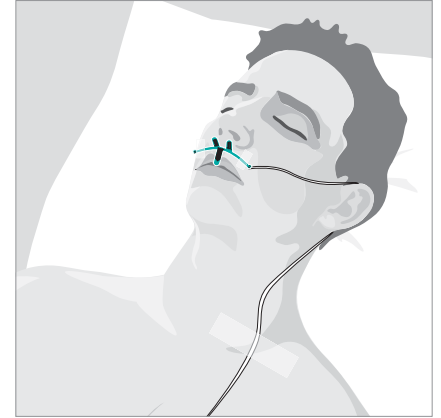

0483

**In the USA, FDA
restricts these devices
for sale by or on the
order of a physician**

SleepSense®

SleepSense® thermal airflow sensors are available in three sizes. Select the right size and interface for your needs.

Disposable thermal flow sensors

For problematic patients, infection control and a solid signal

1426-10-Kit	Disposable flow sensors kit (adult) (10/pack) + interface cable / safety pins	
1427-10-Kit	Disposable flow sensors kit (medium) (10/pack) + interface cable / safety pins	
1428-10-Kit	Disposable flow sensors kit (infant) (10/pack) + interface cable / safety pins	
1426-20	Disposable flow sensors (Adult) (20/ pack)	
1427-20	Disposable flow sensors (Medium) (20/ pack)	
1428-20	Disposable flow sensors (Infant) (20/ pack)	

Interface cables

1410	Disposable flow sensor interface cable (Non US) / safety pins	
1415V2	Disposable flow sensor amplified interface cable / safety pins	

Pressure flow sensors

14830-Kit	AC pressure flow + snore sensor / safety pins + CO ₂ cannula kit	
-----------	---	--

Pressure sensor accessories

14805	CO ₂ cannula kit (5 units)	
14809	CO ₂ cannula disposable filter	

C 14XX Disp. - 002
