

SleepSense®

Sensors that make sense

SleepSense® body position sensors provide the most accurate indication of sleep posture in the industry.

Small and robust, they will provide years of high quality service.

SleepSense® body position sensors offer these advantages:

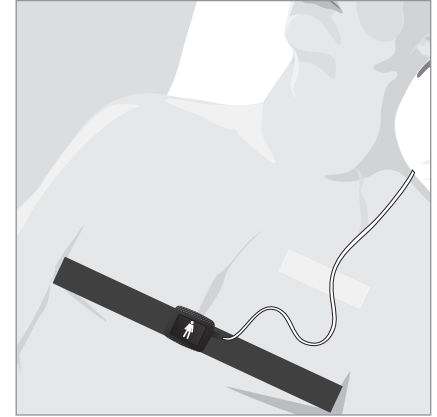

- ▶ Unique design better tracks video-reported position
- ▶ Better body attachment ensures alignment of sensor and body axis
- ▶ Small size and smooth contour for improved patient tolerance
- ▶ Optimized over 13 years of continuous development
- ▶ Super strong and flexible, Kevlar® tinsel cables
- ▶ Sturdy mechanical design, 12 month warranty

SLP is certified to
ISO9001:2000 and
ISO13485:2003  0483

**In the USA, FDA
restricts these devices
for sale by or on the
order of a physician**

SleepSense®

SleepSense® sensors are available in several configurations. Select the right technology and interface for your needs.

AC, DC or switch sensors

The most accurate report of body position. They are especially robust, and easy to use and clean.

1561-Kit	AC body position sensor / safety pins + 1 band	
1564V2-Kit	DC body position sensor / safety pins + 1 band	
1573-Kit	Body position sensor (Ampstar®) + 1 band	
1569-Kit	Body position sensor (Embla®) + 1 band	
1565-Kit	Body position sensor (Alice 3®) + 1 band	
1566-Kit	Body position sensor (Alice 4®) + 1 band	
1567-Kit	Body position sensor (Alice 5®) + 1 band	
1572-Kit	Body position sensor (Easy II) + 1 band	

Band

1550	Large body position buckle band 1"	
------	------------------------------------	---

Note: sensors can be applied on effort sensor bands.
